

Ann R. Brown

February 6, 2010

Plans will be announced later.

Tribute Wall

“ Alva, Kim, Kris, and David,
I'm very sad at this time. You have lost your mother and I have lost one of the best friends that I have ever had. I met Ann in 1974 when she and I taught together for the first time at St. Andrews High School in Charleston. We were both first year teachers. She taught biology and I taught physics and physical science. We bonded that year and remained friends forever after. We stuck together through good times and bad. She and I attended the Circular Congregational Church together in Charleston. I've always been impressed by Ann's intelligence and common sense. She was always an avid reader and had a wide scope of knowledge. I passed my medical books and journals on to her. She could always report back to me things that I missed the first time around and tell me about the articles that I did not have time to read. During her last years, she struggled with numerous health problems, but she never lost interest in the world around her. I was honored to serve as her physician during 1.5 years of her life. She will live on in my heart always.
