LP

“ To a sweet and loving person. And the best granny in the world. Im going to miss you and your memory will always be in my heart. Some of my best memories when I was growing up was when Debbie and I came to stay with you over the summer. We would get into your makeup and play dress up with your clothes. You would never fuss at us but it was funny when you called me Debbie and Debbie my name. We got use to that as we grew up too. But we knew you loved us, so it didn't bother us. Im grateful I got to have the last month or so with you. Im comforted in knowing there is another angel with me. I will love you forever and always.

“ Mom you were a good person, everyone tells me i'm just like you, that I did what I could to help you. I wish I could've had more time with you, I've always told you I'd take care of you and I kept that promise. I'll always miss you, even though your gone you'll always be close to my heart. Every time someone asks me about you, I burst into tears, but its good tears! I love you mom. - love your baby girl, Sue!
