“ Gerald and I worked together for many years in the tool room at ina. In fact I trained him, I can hear him laughing ! but, really I was just showing him what we do because he taught me so much. He was a very skilled machinist and just an all around smart person. The man went back to college and got his degree in machine tool while working second shift! In his 50's, Wow! He knew politics, guns, coins, college football and the Bible. He told me many stories from the Bible and quotes. He always had a bible at work and he read it often. Best part was his wit, he would walk up to a group of men and in seconds everyone would be laughing! Glad I got to know Gerald.

“ Shocked, hurt am I over losing you so soon in life. But, another life awaits us when we will be happy and together once more. Enjoy our older brother Wilson, Dad and Mom who all are in heaven now. On a lighter note, I posted a very faint picture of you which is my favorite since it shows your funny and lovable self. It is a "selfie" you took of yourself at age 12 with my new camera Mother bought for me to take to college. I couldn't wait to get back from college and develop the photos I had taken at school. And what do I see among photos of my classmates but a "selfie" you had taken of yourself. And that was before "selfies" were popular. I will so miss your sense of humor and just a wonderful, kind person you were. Rest brother, life is short and we will be together again.
