“ I’m sorry to be posting this so late but I just found out about Jerry’s passing. Hopefully someone will see this and share with his family. Jerry and I grew up together in Rochester IN. We were the same age so attended grade school and high school together. I lived about a block away from him and as kids spent most evening playing together until dark. (Small town no worries!). I remember his dad bringing home breaded tenderloin sandwiches for us!! My first exposure to the famous sandwiches and haven’t had any better since I left Indiana. His mother was our Cub Scout leader, I think we drove her crazy!! In high school we both played on the school golf team. He was a much better golfer than I was but had quite a temper!! Saw many clubs fly thru the air after bad shots. Remember him getting his first car, a new Ford Mustang, very envious. Also remember that he was an amazing skeet shooter and gun collector. Jerry and his folks were very kind to me growing up. We lost track of each other during our college years so I hope he had the great life he truly deserved. I was looking forward to seeing him at our 60th high school reunion this summer.

“ *From The Friends at Mid-South Guns. Jerry was certainly a friend of the store. A frequent visitor and wise council for tough firearms questions. A very encouraging man to our staff. Jerry was to us, not just a customer, but our friend.*

“ I was privileged to meet Jerry in the workplace. He was quick to express his love for his family, his appreciation for good food, and his adoration for traditional hymns. Jerry was a master of the English language. When Jerry greeted me, I was always left with a smile and usually with a chuckle, as well. My sincere condolences to all the family.
