“ Still cannot believe that I am saying last goodbye to you. It was just a couple of weeks ago, when I and other teammates were watching you presenting your “mad scientist” lab. Even though I knew that you were in pain, you were shining in doing what I knew you like the most beside loving your great family.

Every morning when I get to work I want to peak into your office, hoping that I will find you there.

You'll be greatly missed.

Farewell, my brother.
