“ i was saddened to hear of Linda's passing, even though I know it has been a while. We were good friends in college during the time she attended the University of the South in Sewanee, Tennessee. I had not seen her since the last time she visited Sewanee before my graduation, but we had talked on the phone off and on over the years. I was trying to find a current contact for her when I found this page. Linda was a wonderful person who helped me through a very hard time in my life. She truly loved and valued her family. We will all miss her presence in this world.

“ I can't even begin to fathom that my dear friend Linda is no longer a phone call away - a Facebook message away - a two and a half hour drive away. I met Linda when I was in 7th grade. She was the first friend I made as a teenager and we stayed within a tight circle of friends throughout high school. We went our separate ways for about 16 years, then were reunited again. Linda's sweet and zany personality blessed my life in many ways. She understood me when many others did not and didn't care to try. She always allowed the other persons in her life to be their own selves; she never tried to re-shape or change them. The earth is a bit colder without her presence, but Heaven rejoices to hear her laughter and joyous spirit.
