“ Aunt Jean had a special way of bringing stories to life. As a young girl my earliest memories were the times I spent with her telling me about growing up with my dad and grandparents. Her eyes would sparkle as she told about her life. My only wish is that she would have written them down for the world to read. My love for reading and sharing stories with my students came from her influence in my life.

“ *Faith. Strength. Courage. Grace. Just a few of the qualities I have had the honor of witnessing & learning from this sweet soul. Indianna & Phoenix's beautiful grandmother Jean loved London and I as her own and stood by my side long after her obligation to do so... She was part of my 'SC family' and she will be missed dearly. I rest today knowing that she is finally at peace in the arms of the Lord. I am so grateful for the wonderful memories we made together as a family.*
