“ It has come to my attention that members of the family were not listed in the obituary. I would like to extend my apologies for this. There was no ill intent or other reasons than time and knowledge. Deadlines and time to print can be difficult to meet. Simply, all the family knowledge was known by Venoy and little was written down. He knew it well. However, I extend my requests for assistance to any relatives that would aid with an important project in honor of him, Dr. Williamson, and the city of Hartsville. Our museum will soon exhibit a display to honor the dental practice. The curator and I need anyone in the family to assist or dear friends. We desire to make it a grand display that all would be proud to be a part of. I would love to honor him with the help of family and friends.
