A legend in the NUKE world, almost 50 years at HB ROBINSON. He has seen and done it all. His favorite quote, "I'm here to help!" -Chip P.

Great guy, was Bill! I worked with him 1989-1998, when I was with ABB Combustion Engineering leading S/G and reactor head/fuel work scopes. He was one of the more reasonable ALARA bosses with whom I worked, and also quite entertaining. You were never bored if you were with Bill.-Rich Polek

Flowers towards the end of the service, please have the organist play "Pop goes the weasel" over and over until everyone in attendance is

“ I had the pleasure of working with Bill on the ALARA team. It may be a cliché but, Bill had probably forgotten more than most folks will ever know about Robinson. That was evident listening to him recall facts and experiences over morning coffee and preparing an ALARA brief or doing a walk down with him where spots in the wall had a history behind them only he could remember - because he'd been there when it happened. He had no lack of barbs for his teammates but that was how he let us know he accepted us. Finally, Bill was a loving Father and "Granpa". His softspot under the crusty facade was his pride and love for his children and grandchildren. Rest well, our dear friend, you have earned it.

“ Bill Ritchie was a good friend of mine. We fussed and cut up with each other but that was our way of getting things done. One story that I would like to tell is 30 years ago we took the 5-week Basic Systems course together. Most days after class and into the night we studied together. Well this one week the study material was on the RCS system. Bill knew the RCS System like the back of his hand however, miss read one of the questions that was written on the white board that asked you to draw the RCS System from memory. Bill handed in his test, poured himself a cup of coffee and made his way back to his desk. I was sitting on the other side of the room and I remember he looked so relaxed and content and I thought to myself, wow he aced this test. All of a sudden, he looked at the white board and saw the question that he failed to read before and a sense of terror struck his face and he broke out in a sweat. There was a time constraint on the test so he quickly asked the instructor for his exam back and drew the RCS System. He got a 100 on the exam. We laughed about this off and on for 30 years.

I had the next longest. A few weeks ago I was next to him in the lunch line and he said I am going to kick your butt. He wanted me to leave before him so he could keep the record. That was kicking my butt. RIP Bill you deserve the rest.

“ I will start off by saying you will be missed. For the people who had the privilege of meeting him and knowing him and for those who are so close to him, family and friends, well y'all know just how great of a person he was and that no words could even begin to describe how great of a person he was. An amazing father, grandfather, co worker, friend, or relative. Hes touched the lives of all who knew him. He was very passionate about his family. His grandchildren being the center of his world. I will always remember seeing his face and how his eyes would light up and his smile would grow so big whenever he spoke of them. I will always remember how strong of a person he was fighting til the very end, taking on each day a new as they would come. I wish I would have held on just a little longer had I know it would be the last hug we shared. I would have exchanged more words with you. I would have said I love you more than once and louder each time. I would have rubed your shoulders a few minutes longer as this was one of our things we would always do. Rest easy up there and don't let know one talk those Steelers down. I love you I love you I love you. RIP

Praying for family.

“ Bill was one of the first Radiation Control Technicians that I worked with way back in 1974. He taught me many things about the H. B. Robinson Plant. He was always willing to share his knowledge and experience. We worked together at the plant until 1985 when I moved on to Raleigh. We always stayed in touch after that. We would usually talk on the phone around Christmas time when he or I one would make the call. Sadly not this year. I was thinking about making that call just the other day. Bill was always good friend and he will be missed by many. RIP Bill.

“ *Condolences to the family. Bill always had joke to brighten people's day and was one proud grandpa. May God give the family peace and understanding for the days ahead, and may the unconditional love he had for his family be the foundation of comfort during this difficult time.*
